AN IMMIGRANT TAX.

A Measure Which is Being Urged by the Members from New York. Washington, April 3.—The New York Congressmen are moving in the matter although it is as yet impossible to say how of re-establishing an immigrant tax. The

members of the House from that State some time ago appointed a comdeadence rather than pregress, especially in spots. Some of the people fear that the fate of Mobile is upon them. Taxes are very high. They are bitterly opposed to the outlet system, fearing that it may lead to the building up of an other and rival city near the full. Therefore they talk of mothing but the leves system. They all go in for "the old flag and an appropriation," and a mighty big appropriation at that. State's rights are nowhere these days, and the Federal Government, or rather the Federal Government, or rather the Federal Treasury, is everything.

Memphis impressed the Captain as another city that was in a decadent state. The streets were in a very unsightly and anthrifty condition, and very suggestive of an empty treasury and poor credit. Vicksburg shows some signs of animation, as also arkansas City, but generally speaking the sourty looked as if it had got a severe sack eye.
